**Cw 09 Activador De Windows 7 Descargar**

Download

Windows 10 Activator Win 10 Activator Checksum Error.. Windows 7 Activator Chews Wga V0. 9 Free Download.. 2.Q: Jquery UI sortable: Keeping arrows in original order I am trying to sort a list of checkboxes (no li's) using jquery UI, using the sortable function. the list is stored in a div, and the sortable function below works perfectly, except that when you let go of the mouse (or the list item), the list goes back to its original order. how can I get the list to preserve the order it was in, even after you let go of a handle? the css is: .sortable { list-style-type: none; margin: 0; padding: 0; display: block; width: 100%; overflow: hidden; z-index: 1; } /* size and position of list */ .sortable li { margin: 5px; padding: 5px; font-size: 1.5em; list-style-type: none; float: left; position: relative; z-index: 1; } /* end css */ and here is the code: aaa bbb ccc thanks for your help. A: The only thing I've changed is the jQueryUI "port" setting back to 0.7. This worked for me in jsfiddle. The "port" setting controls how CSS variables are handled in jQuery. Just as a note, the.outerHeight() function can be simplified. var $li = $("ul.sortable li") , $ul = $("ul.sortable") , lis = $li.length , ui = $ul.sortable({
