This video provides a quick overview of how you can import raw data into LISREL and how to test the path model... This is just the beginning, and we're going to move on to some other things we can do here. Here is a list of all the functions we will be doing: Data import Creating a project and loading data Data entry and sampling Path creation Working with data and saving Loading and editing the path Export Path and Compare Path Files The first step is to load the raw data into LISREL. To do this, open the path file. Select the menu item File â†’ Import Data.
