I'm 19 and I just got a new Lenovo ideapad 320. It's such a nice and light laptop, but it's also so slow! It also has really bad wifi, so I'll need to do all my homework on an iPhone. I did a factory reset (which I don't think it had), but I still have that problem, and it's so very frustrating. I've used many laptops before, mostly windows, and this one didn't work at all. I had the same experience with another laptop from Lenovo, the ide
