What's new:

THE NEW FANTASY ACTION RPG. Rise, Tarnished, and be guided by grace to brandish the power of the Elden Ring and become an Elden Lord in the Lands Between.

- **A Vast World Full of Excitement** A vast world where open fields with a variety of situations and huge dungeons with complex and three-dimensional designs are seamlessly connected. As you explore, the joy of discovering unknown and overwhelming threats await you, leading to a high sense of accomplishment.
- **Create your Own Character** In addition to customizing the appearance of your character, you can freely combine the weapons, armor, and magic that you equip. You can develop your character according to your play style, such as increasing your muscle strength to become a strong warrior, or mastering magic.
- **An Epic Drama Born from a Myth** A multilayered story told in fragments. An epic drama in which the various thoughts of the characters intersect in the Lands Between.
- **Unique Online Play that Loosely Connects You to Others** In addition to multiplayer, where you can directly connect with other players and travel together, the game supports a unique asynchronous online element that allows you to feel the presence of others.

Attack on Titan

Web Novel

Developer : Kodansha / maho

Platform(s) : iOS, Android

An epic battle against an omnipresent titanic threat has begun. Humans now face an entirely new monster called the Titans—the vernal equivalent of the "God"s of the Old Testament, towering titans that devour people.

THE NEW FANTASY ACTION RPG. Battle against the Titans as a relatively powerful-but-young warrior who is being carefully groomed for becoming an elite Titan-killer.

- **An Epic Battle Begins** This is an open world where there is no progress bar or activity timer. Explore an open field that does not end, and fight endless battles against Titans.
- **Infinite Possibilities to Fight** Respond to the requests of your village, instigate raids on your rivals, or simply engage in content creation such as collectibles, minigames, story, or troubleshooting. The possibilities are endless.

Q: Unsetting Module Properties in Vue.js I'm creating a module in a Vue.js app to display a table of entries in a database. What I want to do is display the current value of the entry_id: But I don't want to make that each time I get a new entry for that to update. So I tried using @input but it doesn't seem to like that. (entry.entry_id is used in the data() of the component. Am I missing something here? The way I'm declaring the module in the main app template is: ID Username Pass {{ entry.entry_id }} {{ entry.username }} {{ entry.pass }} A: If you want to set something with @input. You could use v-model.
