#1 - The Best RPG ever made! "Gain stats, gain skills, gain items, and gain loot. The combat system is fast and furious, and the map is massive. There is no set amount of battles you must complete to be able to advance the game, and the combat system makes it easy to beat bosses even if you're using a weak build. It feels like a VR game, but with a much bigger world. The story is gripping, the voice acting is phenomenal, and the combat is so fast and fun that I would watch it again just for the excitement. This game was a monumental game-changer when it was released. It's a true successor to the game that started it all. If you liked the style of Diablo, Breath of Fire, Secret of Mana, or Final Fantasy games, you will love this. It's an amazing RPG that never gets old." #2 - The Best RPG of 2018 "Final Fantasy XV: A Realm Reborn is free-to-play for PC and PS4. There's no way to call the new game Final Fantasy XV, but it has the feel of an official release from Square Enix, the brand that filed the original game's trademark. It's a timely and welcome addition to the Final Fantasy series, too, since it's a remake of a long-dormant game from the 90s. The game is instantly familiar to anyone who has played Final Fantasy V, VI, and VII. There are even returning characters like Prompto, a guard from the original game who is now a member of one of the four elemental settlements. The story is all about the second huntsman, a rich kid who has to choose a side in the war between the greedy empire of Lucis, and the ronin-like kingdom of Insomnia. The most interesting aspect of the game, however, is the way it adds modernity to the setting without being afraid to take risks with long-established roles and environments. The open world is vast, and traversal is fast and responsive - ideal for an RPG. Some of the music can be cheesy, but the in-game voices are true to type. The combat system is fairly straightforward, with the world map acting as a large grid map that determines where the players fight. The new PS4 Pro version is more stunning than bff6bb2d33
