The Popular Online RPG Tarnished Champion Emerges For The First Time In The West June 2, 2017 CAPCOM(R) PAD, NAMCO BANDAI Games America Inc. and AGATE, have revealed today an action role-playing game for PlayStation®4, Xbox One and PC in North America. Set in a world between the two mythical lands of Althea and Shade, the game boasts an expansive world in which players can freely explore; engaging missions with countless branching pathways; legendary monsters to hunt down; and passionate online multiplayer that can be enjoyed via PSN®, Xbox Live and Steam. Tarnished Champion is a fantasy action RPG that blends elements of medieval and modern gaming, allowing players to create their own unique hero, traveling through a vast world of richly detailed graphics. With a focus on quick-

---

action, the game allows players to select and customize a wide variety of class skills and weapons to conquer enemies, push back their limits in quest-specific encounters, and discover hidden secrets and new areas. The game's fantastic exploration and explosive action is packed with various situations and enemies to challenge players all the way to the heart of the Lands Between, where the legend of the Elden Ring continues.

Traditional RPG in a New Light Tarnished Champion draws players deeper into a unique fantasy setting in which players are given the freedom to take an active role in creating their own character and playing the way they want. Players start by choosing one of four classes of character: a warrior, knight, mage or demon lord. Each class is tied to one of the four legendary bosses featured in the game. Players then customize their characters by selecting weapons, armor sets, items, and magic skills in ways that allow players to create their own path through the game. Tarnished Champion also allows players to

---

create and play as friends online for up to four people in a party with up to 16 players in a single session. Packed with Action and Excitement Tarnished Champion's action-packed style of combat makes for a truly unique experience. Players can activate the powerful effects of skills to unleash a variety of attacks, or can utilize class skills that use different weapon styles. Tarnished Champion also allows players to enjoy the weapons of the eight legendary monsters of the world, and each monster has its own set of class-specific weapons that players can use to help them overcome enemies. Players will be

\*\*\*\*\* - amazon.co.jp " [GAMEPLAY] 3DS eShop Exclusive's aura system, and the fact that there is no auto-battle or free turn-in-battle, has never been left by the Elden Ring Cracked Version game." [STRATEGY OF THE GAME] - "The fact that the battles are divided into time limits, turn-in-battle, and "turn-in-battle with a gauge" has become a breath of fresh air, which I have not seen in other RPGs." [CONTROL] - "So far, I have not seen the transition from the PS2 RPG, and it is a major improvement." - "When you use double blade in the tutorial, or with high level equipment, your stamina will decrease, and the double blades will be moved to your shoulders. The default settings for the right and left stances are preferred." - "In the movement system, you will be able to aim and move around with much ease, as it has never been as powerful as in an RPG." [WORD OF MOUTH] - "I never once had the feeling that anything was wrong. The length of time for the battle was always appropriate, and it improved the element of the flow of battle." [GRAPHICS] - "The graphics in the field have

never disappointed. The design is beautiful, and it will provide a new experience to you as well as your friends and family." [ELEMENTS OF PLAY] - "More Game modes and content are expected to be added in due time." [OTHER] - "The game requires purchases for a variety of items, but only a couple of these will be used by you, which can be a good thing." **? We should take a look at Freeroll wagering and blackjack. Neither of these are currently available for sports betting. As we probably agree on that you can't have a mainstream sportsbook without staking, you should have your best wagering odds (as high as possible for exciting bets like this one) and, if you run them straight, basically half of all your rake. But this is all part of the new legitimate wagering laws, which cannot be circumvented by the casino methods of sports bookies. As we can see we have legalized sports in the states that already have a sustainable sportsbook infrastructure, while other states opt for a webbased casino app with few sports offerings. If we all want sports games and even some casino games, this needs to be a part of our, as a state or as a nonprofit if this is a goal to be achieved, mindset. The goal has more to do with money than any other emotion and we, as a society are literally being driven into reverse rut, but to make a choice to make these possible requires an opinion. So how do we start that opinion? Well, we can start small and try to make some kind of sportsbook for fun and for practice. Let's make wagers about the Superbowl and the Blackjack and start to make a bankroll once again. And we start from here! How do we get to the big leagues? Let's admit we have an obligation to start small. After the initial program development starts, the fun and funds will return full circle, as we will have to pay for eventual expansion expenses to the legal sports betting infrastructure. We will be open for project ideas, as we will need some folks to help us get there... and help build the board and organize everything. Curious to learn more? Just send an email to: [haslemamab@lanta.net](mailto:haslemamab@lanta.net) to begin the discussion of how to help us on our way!**

**Fractionated stereotactic body radiation therapy for bladder cancer: toxicity versus efficacy. To evaluate in a series of patients the feasibility, efficacy, and toxicity of stereotactic body radiation therapy (SBRT) for metastatic bladder cancer in a single institution. Seventeen patients with metastatic bladder cancer underwent SBRT in a 30 Gy/10 fraction regimen. Toxicity was evaluated by using the NCI-CTC version 3.0. Retrospective review of the patients' outcomes was performed. Kaplan-Meier curves were used to estimate the survival rates. The patients' characteristics are shown in Table 1. No severe acute toxicity was encountered except for Grade 1 and 2 fatigue, anorexia, and diarrhea in two patients. No Grade 3 or 4 gastrointestinal or genitourinary toxicity was observed. Three patients had late Grade 3 genitourinary toxicities. Four patients had a chronic Grade 2 urinary tract dysfunction.**
