What's new in FAIRY TAIL: Ichiya's Costume Quot;Anime Final Season Quot;:

The initial installment of the "Anime Final Season" took place when Sargo decided he would enter into the realm of "Sailor Moon". Unfortunately, he mistook a figure of a girl as a figure of a boy, and he was punished to the point of death. In the second chapter, this heroine, Ichiya, finds herself on the battlefield, in the midst of the war. She checks herself out to find that her body has been altered into that of a male. She couldn't understand why she had become a male until she encountered Sargo. She doesn't remember her parents or any of her past life. Without a clue as to why she had become male, all that Ichiya could do was endure a painful living as the boy Ichiya. She had no choice but to act with the role of the male Ichiya, even at the risk of death. This is also the story of the male Ichiya in the sense that, as the time passed and the war worsened, things would get worse and worse for him. At first, even the male Ichiya was baffled as to why he had been made into a man and what his future was going to be like. However, he discovered that he could in fact use his new form and became more useful in battle, since he didn't need to cry over every little thing like he used to. While it was difficult living a life as a male, Ichiya was grateful to him for taking care of her. Because of Sargo, she was able to survive and went on to live a normal life. SHOP: Gloves & Tsuyune's; & Gemma's; & Sailor Moon's; Alternate Members As for the figure, the claw gloves represent her splendor as the "Sailor Moon" equivalent to be a gorgeous goddess. On the other hand, the talisman and heart tattoos represent the true love she had for a certain person. Emphasizing this is the clear lines, which signify true love. The rosy gem represents the essence of the mystery of true love. Besides this, I also want to emphasize the vibrant colors for her character, so
