Developer: EA Canada Publisher: Electronic Arts Platforms: PlayStation 4, Xbox One Release Date: October 27, 2016 ESRB Rating: Mature Price: \$59.99 Standard - High-Octane Soccer Action. The world's greatest soccer action returns in FIFATwentytwo, featuring all-new FIFA 22 HyperMotion Technology. New to FIFA 22 is "HyperMotion Technology," which uses motion capture data collected from real-life players playing a complete, high-intensity football match in motion capture suits. The data collected from player movements, tackles, aerial duels and on-ball actions is used to power FIFA 22 gameplay. Players will move, shift and sprint with precision, while attacking and defending with agility. Actions are intelligently fueled by player positioning and the surrounding environment, and it will be up to you to determine the outcome of each and every game. Twenty-two real-life athletes — including Lionel Messi, Alex Morgan, Paul Pogba, Harry Kane and Wayne Rooney — have donned the player-equivalent "Motion-X" suits to showcase the massive changes that EA has made to FIFA. These players have been captured in the "live" motion capture suits, which capture the movements of all players from head to toe for ultra-accurate and realistic player animations. New in FIFA 22 is the ability to customize the body/legs and head to perfectly reflect the visual appearance of your favorite player. Choose a different face or body shape, outfit your character with a new jersey, shorts or gloves, or simply alter the camera angle, to create the same authentic experience that you experienced while watching the game or following the player on social media. FIFA 22 is a true football revolution. The game takes immersion to new levels, delivering a complete, high-intensity football experience in the best FIFA tradition. Features "HyperMotion Technology" - FIFA 22 HyperMotion Technology uses the ultra-accurate motion capture data from all 22 real-life athletes captured while playing a high-intensity football match in the FIFA 22 Motion-X suits to provide the best accuracy and feel for player movements, positioning and on-ball actions. Through gameplay, you will be able to manipulate the ball, choose where to attack, and experience what it feels like to be the best soccer player of your real-life hero. "My Player"

For the first time ever, FIFA heads to Russia with a new look and feel. An all new Frostbite engine is brought to the world's largest landmass in FIFA 20, which opens up a new chapter in the biggest game in sports video gaming. With a brand-new, unseen angle of the world's most popular club, FIFA 20 delivers a game for the first time ever to feature players from all over the world, and for the first time ever, the game is available on the Oculus Rift and HTC Vive virtual reality (VR) platforms. FIFA 20 features the biggest cast of players ever, including new additions to the Ultimate Team, historic clubs, and for the first time in any FIFA game, a fully playable Argentinean National Football Team. The Journey to FIFA 20 Make no mistake. FIFA 20 is the start of a new era, and players will now experience gameplay innovations and features across every aspect of the experience. It's a game where players will experience a compelling, new narrative in addition to an improved infrastructure with enhanced gameplay mechanics. These advances are based on nearly four years of research, technical advancement, feedback and collaboration with clubs from all over the world. The result is that FIFA 20 delivers real-life gameplay for the first time. Crucially, the game will deliver authentic player behaviour across the pitch, with players making decisions based on a range of contextual factors, from their teammates, opponents and the game situation. Key new gameplay innovations: UEFA Champions League The UEFA Champions League is a two-step UEFA competition comprising the Champions League and Europa League. FIFA's competition is contested every season with the bulk of the action taking place in Europe. In the Champions League, clubs compete for the Champions League trophy, which is presented during the annual UEFA Champions League Final. The top four teams from the group stage of the Europa League, meanwhile, progress into the Round of 16 of the UEFA Europa League. The new Champions League mode sees players compete across all 62 UEFA Champions League matches over two seasons, giving players the chance to unlock and purchase all-new kits for legendary clubs including Barcelona, Real Madrid and Manchester United. Furthermore, new gameplay innovations enable players to control every aspect of the game experience on their journey to becoming legends of club football. In addition to this, FIFA 20 will see the all-new FIFA Ultimate Team experience return for a new generation. FIFA Ultimate
