items are shown in bold, and highlighted. How can I get a list of all items selected by the user, in a listbox? A: It seems you want to get all distinct items that are listed in the list box. This is just a list of the indices of the selected items. If this is actually what you want, the query is fairly simple, but if you need to keep track of each of the selected items, there are more complicated options. ListView can keep track of the selected items (you
