.. Droppix Label Maker Serial Free Download.SACRAMENTO, Calif. (AP) — A spate of new gun laws in California are being held up in court as a de facto ban on carrying handguns in the state is being challenged in a federal case. At issue is a now-dead bill that would have given people the right to carry concealed weapons. The weapon owners who sued say California's ban on the practice goes too far. The state has an estimated 10.8 million legally registered guns but 5 million of those can't legally be carried concealed because the state doesn't recognize the weapons permits issued by another state. Supporters of the new laws say the law needs to be fixed. They say the lawsuit against the state is another example of extreme gun owners trying to use the courts to thwart laws meant to control firearms and to keep the mentally ill from buying guns.
