Confluence PlantUML Plugin [32|64bit]

=====
* Add UML class diagram: ---- ![UML class diagram](/images/icon_plus.png) * Add UML activity diagram: ---- ![UML activity diagram](/images/icon_plus.png) * Add UML state diagram: ---- ![UML state diagram](/images/icon_plus.png) Using Confluence PlantUML Plugins

=====
Confluence PlantUML Plugin helps you to embed various UML diagrams such as Class, Activity and State Diagrams, Flowcharts, Activity and State Chains into a Confluence page. These diagrams can be defined as simple text areas using a special syntax. Using Confluence PlantUML Plugin, you can insert your diagrams to any article or page as long as you are a logged-in Confluence user. * Go to Confluence Plugin Manager to install Confluence PlantUML Plugin, if your Confluence installation is not yet installed. * Download the plugin archive from * Unzip the downloaded archive and rename the archive as confluenceplantuml.zip and copy it to your Confluence plugin folder. * Open 'Plugins' from the 'Insert' menu and click on 'Add Plugin'. * Paste the unzip file as 'Plugin' and click 'Save'. * Drag and drop an area into your page to insert a diagram. You can also create, edit or remove diagrams directly from your browser's menu bar. How to add a UML diagram to a page

=====
1. Click on the area of your page to insert a diagram. For example, for adding UML class diagram to a page, you can click on 'UML Class' from the page's menu bar and select the diagram in the list. 2. You can customize the diagram properties and insert additional diagrams into a page. Please find the details on the above two steps below.

=====
1. Click on the area of your page to insert a diagram. For example, for adding UML class diagram to a page, you can click on 'UML Class' from the page's menu bar and select the diagram in the list. 1 b7e8fdf5c8

Confluence PlantUML Plugin License Keygen Download
