So, I'm going to update this blog a little bit - as well as my sub reddit, tekkingstuff.com. My plans for a journal are going to be a series. I would like to keep people up to date with what I'm doing as well as keep a reference for when I come up with new ideas. I have a lot of ideas that I want to try out and I will be sure to keep you guys posted of what I do, what I learn, and also just think you guys would appreciate it. However, I want it to be as detailed as possible, and if I am not making progress then I want to be able to say "here's my progress and here's how I did it". In general, I want to keep things short and simple, but I don't think I'm going to miss out on anything if I do that. So, if you've been around, and still want to check out what I'm doing and what I'm doing, or if you haven't and are thinking about it, I'm really looking forward to checking out what you guys think. Thanks for reading, guys! Before I go, I will make sure to check out this topic, this one and also this one. So, if you'd like to contribute, you can. This could be advice, thoughts, things I could be working on that you could tell me about, or, you know, just checking in, I really appreciate it. Thank you guys for reading, and if there's anything else you'd like to know, you can check in with me on my sub reddit, tekkingstuff.com or my blog.a, Specimens of the Cephalochordate * c9d1549cdd
