_____ **English by Valentino RomanianPublication place 2015 Circumscribe vision in limited space. The purpose of this post is to help and find out, too as I read some books and reviews. Books that were given me by relatives and friends. I called it "review reading." I check each Review for current events and the latest information about the New Fantastical Action RPG: Rise, Tarnished, and be guided by grace to brandish the power of the Elden Ring and become an Elden Lord in the Lands Between. I also read the manual because it contains much useful information and tips to improve the game experience! What I like more than other games and its unique elements is the story and development of the characters. The images, captions and illustrations are also very good and attract the story with a thousand colors of vivid, high quality artwork. The book is well prepared and had in mind, to be a guide and a Useful, besides the review of important books and a good friend. Also, included game disks, character sheets, stickers. There's a vast world full of adventure in the Lands Between. The world of the Elden Ring encompasses a large geographical area and features a world of fantasy and magic. The hero rises in this marvelous world with the Elden Grandor. The game provides the ability to customize the appearance of your character, combine weapons, and develop your own way of leveling. The purpose of leveling is for finding ways to satisfy the character and go to the limit! The main story is about the Corrupt Grandor, who was a powerful enemy in the past and created weapons with black magic. He is trying to take over the Heroite and fill the abyssal space between the worlds. When you become the Grandor, you are already facing challenges from the past and present that certainly make powerful enemies. You meet many characters in the world, including Calamity, the hero in a world short on people capable of becoming heroes. This hero has a very dark past and lacks the dexterity and brains; yet, he is above the rest since they choose a heavy and the safest way. A voice deep inside his head awakens within their troubled soul. It is an exceptional luck to meet a character so amazing and strange, totally new game. Because there is no way to find the heroite**
