Equation of state and the shape of the high density {#appendix-a.-equation-of-state-and-the-shape-of-the-high-density.unnumbered} ===== The equation of state of hadronic matter is unknown at high energy densities. The study of the high density hadronic matter phase is one of the main challenges of the experiment at RHIC and LHC. Since no QGP phase is expected in this region, the state of the matter has to be described by a mixture of nucleons and hadronic resonances. Following the results of the WA97 [@wa97], the high density phase is described by a statistical mixture of pions, kaons, lambdas and non-strange baryons (baryonic resonances) obtained through 648931e174
